# ANTHONY'S VIETNAM TRAVEL STARTER GUIDE

This Vietnam Travel Starter Guide comes from my eight years of experience living in Vietnam, traveling domestically, flying in and out internationally, and navigating daily life in the country.

I've broken the guide down into four **Phases**, meant to help any first-timer with booking, preparation, arriving, and getting through their first 24 hours in Vietnam. Much of the advice, especially in **Phase 3** and **Phase 4**, will be helpful beyond the first day.

You should have received an **e-book version** and a **PDF version** of this guide by email. These are yours to download, keep, and view at your leisure. Both formats can be read offline, so you can access them on the airplane or anywhere without an internet connection.

The PDF version is good for anyone wanting to print out the full guide or specific sections/pages of it. An example is the **Phase 2** section, **Landing in Vietnam (Airport to Hotel)**.

This starter guide doesn't cover niche requests, but a lot of the tips and information inside will set you on the right path to finding a solution. For example, finding specific items, making appointments, contacting local businesses, etc. It's all covered inside.

Use **the Table of Contents** to bounce around the guide. It's full of my first-hand experiences and random tips for navigating Vietnam.

I've added a general resources list to the end of this guide. I've also shared a few links throughout the guide. You **can** view the entire guide offline, but to view any of the links, you will need an internet connection.

I've created a **private email for purchasers of this guide** to contact me. If you have any questions about anything that follows, email me at:
